

National Level SSM Hackathon 2026

Integration of AI capabilities in the OS ecosystem(Linux Based)

List of shortlisted teams for the final round of participation.

No	Reference Code	Track	Problem Statement	Team Name	Team Order	Time
1	CH20500208	Track 1: AI Usage at OS & Kernel Level	AI-Powered Explainable Linux Security Assistant for Kernel-Level Intrusion & Behavioral Threat Detection	Team_Red_ Eagle	Team 1	10:00
2	CH10600109	Track 1: AI Usage at OS & Kernel Level	Autonomous Fault Detection and Self-Healing Operating System	CRX	Team 2	10:15
3	CH10600120	Track 1: AI Usage at OS & Kernel Level	Autonomous Fault Detection and Self-Healing Operating System	Bashin'	Team 3	10:30
4	CH10800092	Track 1: AI Usage at OS & Kernel Level	AI-assisted Kernel Attack Surface Analyzer	Nexus	Team 4	10:45
5	CH10900178	Track 1: AI Usage	Open Innovation - Linux Based	AgentOS	Team 5	11:00

		at OS & Kernel Level				
6	CH20500125	Track 1: AI Usage at OS & Kernel Level	AI-Powered Explainable Linux Security Assistant for Kernel-Level Intrusion & Behavioral Threat Detection	Kernel fusion	Team 6	11:45
7	CH20500128	Track 1: AI Usage at OS & Kernel Level	AI-Powered Explainable Linux Security Assistant for Kernel-Level Intrusion & Behavioral Threat Detection	ZeroTrace	Team 7	12:00
8	CH10600067	Track 1: AI Usage at OS & Kernel Level	Autonomous Fault Detection and Self-Healing Operating System	OS Hacker	Team 8	12:15
9	CH20100089	Track 2: AI at Application Level	AI-Powered Intelligent Storage Optimizer for Linux OS	LLMAO	Team 9	12:30
10	CH20100093	Track 2: AI at Application Level	AI-Powered Intelligent Storage Optimizer for Linux OS	Binary_tree	Team 10	12:45
11	CH20100100	Track 2: AI at Application Level	AI-Powered Intelligent Storage Optimizer for Linux OS	Linux_Squad	Team 11	13:00
12	CH20100131	Track 2: AI at Application Level	AI-Powered Intelligent Storage Optimizer for Linux OS	Blazex	Team 12	14:00
13	CH20100137	Track 2: AI at	AI-Powered Intelligent Storage	Zeros and Ones	Team 13	14:15

		Application Level	Optimizer for Linux OS			
14	CH20100179	Track 2: AI at Application Level	AI-Powered Intelligent Storage Optimizer for Linux OS	BinaryBrains	Team 14	14:30
15	CH20200034	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	ALT ELITE	Team 15	14:45
16	CH20200147	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	CodeX	Team 26	15:00
17	CH20200088	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Yurination	Team 17	15:15
18	CH20200118	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	DBUS Delegates	Team 18	16:00
19	CH20200138	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Alchemy	Team 19	16:15
20	CH20200141	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Blazex	Team 20	16:30
21	CH20200142	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Outliers	Team 21	16:45
22	CH20200037	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	White Box the OS	Team 22	17:00

23	CH20200170	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Nocturnals	Team 23	17:30
24	CH20200183	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Toofani Chakravyuha	Team 24	17:45
25	CH20200187	Track 2: AI at Application Level	AI-Powered Linux Operations Assistant Using Natural Language Queries	Dhurandhar	Team 25	18:00
26	CH20300036	Track 2: AI at Application Level	AI-Based System Intent Engine for Safe Linux Command Execution	Team Legend	Team 26	18:15
27	CH20300117	Track 2: AI at Application Level	AI-Based System Intent Engine for Safe Linux Command Execution	IntentGuard	Team 27	18:30
28	CH20300186	Track 2: AI at Application Level	AI-Based System Intent Engine for Safe Linux Command Execution	InfiniteLoops	Team 28	18:45
29	CH20400119	Track 2: AI at Application Level	Open Innovation - Linux Based	HumkoChai Chahiye	Team 29	19:00
